Dear Parents,

Hello, My name is Stacey Watson-Changey and I am the Founder and Director of The Dylan Scott Foundation Centers. I started this organization in honor of my son that was senselessly murder July of 2016. The youth empowerment and leadership program are designed to help guide our youth into a successful future. We at DSFC focus on the self esteem, self-respect, relationship resolution, and artistic expression of our children from as young as 6 to 18 years of age. Our workshops are focused on conflict resolution, self-esteem, self-respect, relationship building and so much more.

We have an incentive at the end of our programs that we feel will help them complete each workshop. We have partnered with Moolah Wireless to give away free tablets with a year of free WI-FI to each student. We will have a small graduation and presentations. We have special guests, Shaquille O'Neal and T.I will be in attendance to present them to the students. Please fill out the registration with the QR code below, if you would like our organization to complete the registration please provide us with a copy of your ID and proof of income (Medicaid card, snap, free lunch letter, housing assistance, or paystub). We look forward to having your child/ren attend and receive a great experience with DSFC.

Sincerely,

*Mrs. Stacey Watson Changey
